

APPLICATION AREA

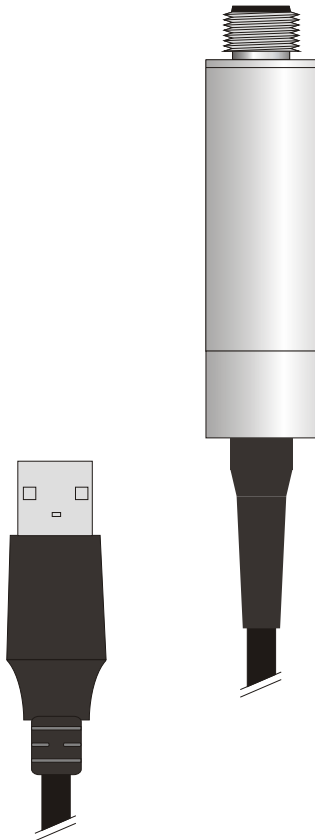

USB-programmer for programmable sensor devices.
Galvanically isolated.

CHARACTERISTICS

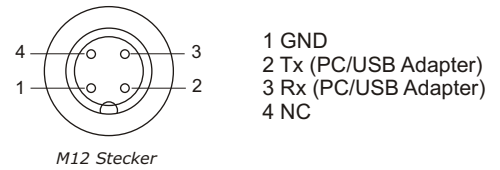

TECHNICAL DATA

Design	Stainless steel tube with M12/4 connector
Dimensions	L=70mm, B=18mm
Cable length	1,7m
USB-port	Typ A, USB1.1 u. USB 2.0 compatible
Operating system	Windows 2000, XP, Vista, Vista x64
Operating temp.	5V DC (USB-Bus)
Current consumption	75 mA
Ambient temperature	0 up to 65°C
Humidity,	0 up to 75% (without condensation)
Protection class	IP 54
Weight	90g

Connection

COMMENTS

Application

The programmer is designed for the parameterization during the service. It connects Sontec devices with the PC by means of plug adapters.

Applicable plug adapters

ST-M12-MM
- 8 pole red micro plug

ST-M12-KL
- 3 pole 2,5mm jack plug

ST-M12-Y-AD
- M12 cable adapter
